

Tabellen BVG-Altersguthaben

Die Tabellen zeigen für eine ununterbrochene Zugehörigkeit zum BVG seit dem 1. Januar desjenigen Kalenderjahres, das dem 24. Geburtstag folgt (Beginn des Sparprozesses) aber frühestens seit dem 1. Januar 1985 **das minimale und das maximale BVG-Altersguthaben**, das am Ende jedes Kalenderjahres seit 1985 erworben wurde. Dies für Männer und Frauen entsprechend dem Alter, das sie 2021 erreichen (Differenz zwischen 2021 und Geburtsjahr). Das minimale Altersguthaben gehört zu einer Person, die jedes Jahr mit dem minimalen koordinierten Lohn versichert war. Das maximale Altersguthaben erreicht, wer jedes Jahr mit dem maximalen koordinierten Lohn versichert war.

Um das individuelle BVG-Altersguthaben eines Versicherten zu ermitteln, muss immer seine BVG-Schattenrechnung zu Rate gezogen werden, die seine Vorsorgeeinrichtung führt. Das individuelle BVG-Altersguthaben liegt entsprechend der Höhe des koordinierten Lohns des Versicherten zwischen dem minimalen und dem maximalen Wert in den folgenden Tabellen.

Damit ist es möglich, das von 1985 bis 31. Dezember 2021 erworbene Altersguthaben abzuschätzen bzw. einzugrenzen. Dies kann nützlich sein, um

- die Höhe einer neuen Invaliden- oder Hinterlassenenrente zu schätzen, denn wenn das erworbene Altersguthaben bekannt ist, kann leicht das projizierte Altersguthaben im BVG-Rentalter und damit die BVG-Invalidenrente bestimmt werden;
- den BVG-Teil bei umhüllenden Vorsorgeeinrichtungen zu ermitteln (ihre Leistungen gehen über die minimalen BVG-Leistungen hinaus);
- im Falle von Freizügigkeit, Scheidung oder Wohneigentumsförderung die Höhe des Altersguthabens zu kontrollieren;
- den maximal möglichen Einkauf beim Eintritt in eine BVG-Minimalkasse zu schätzen.

Anwendungsbeispiele finden sich im Dokument „technische Aspekte der obligatorischen beruflichen Vorsorge“, das unter folgender Internetadresse abrufbar ist (Grundlagen/weitere Informationen):

<https://www.bsv.admin.ch/bsv/de/home/sozialversicherungen/bv/grundlagen-und-gesetze/grundlagen.html>

Zwischen 1985 und 2004 war die Staffelung der Altersgutschriftensätze für Männer und Frauen verschieden, weshalb sich die Werte in den folgenden Tabellen für Männer und Frauen teilweise unterscheiden.
